Climate change is here! Which part of the country will become an unlivable hellscape first?

Contestant #1: The Northwest

There’s fire everywhere and we can’t breathe.

Contestant #2: The Northeast

Oh yeah? Well, we’re buried in ticks.

Contestant #3: The Southeast

Hi, I’m from Florida. Maybe you’ve heard about the hurricanes?

Contestant #4: The Southwest

Uh... the person from Arizona collapsed from heat exhaustion.

Also, soon we won’t exist.

And the winner is... everyone! There’s no place to hide.
